WORK EXPERIENCE

TechKN Consulting Services Pvt Ltd.

New Delhi

Frontend Developer

Jul 2025 - Present

- Built an **offshore client dashboard** for internal stakeholders to track **growth metrics, invoicing, orders, and performance records, improving data visibility and decision-making.**
- Developed, maintained, and enhanced **Bluestar dealership projects**, enabling dealers and sellers to manage catalogs efficiently.
- Streamlined catalog management processes, reducing processing time by **~10%** and enhancing overall system reliability.
- Collaborated with backend teams to integrate REST APIs and improve data consistency across modules.

Indian Railway Catering and Tourism Corporation

New Delhi

Software Application Support

Dec 2023 - Jun 2025

- Provided comprehensive support for IRCTC's mobile application on Android and iOS platforms, including issue troubleshooting, updates implementation, and performance optimization.
- **Frontend Modernization:** Successfully **migrated internal monitoring pages** from legacy **JavaServer Pages (JSP)** to a modern **ReactJS** frontend, improving maintainability and faster load times.
- Utilized **PowerShell** for log analysis, issue diagnosis, and troubleshooting production incidents across IRCTC mobile application infrastructure
- Contributed to continuous improvement initiatives by gathering user feedback, proposing enhancements, and monitoring performance for stability and reliability.

Ivy Benefits Pvt. Ltd.

New Delhi

Software Engineer

Jun 2022 - Dec 2023

- Live Site: <https://www.ivybenefits.com/>
- Live Site: <https://www.blueridge.site/>
- Proficiently managed UI development using **HTML, CSS, JavaScript, and ReactJS** within a dynamic startup environment.
- Led the end-to-end front-end development of the company's web application, ensuring its successful deployment.
- Collaborated seamlessly with cross-functional teams to align the web application with company objectives.
- Achieved a successful production deployment, significantly improving user experience and overall performance.

Rose I.T. Solutions Pvt. Ltd.

New Delhi

Recruiter Analyst

Nov 2021 – Apr 2022

- Employed various data tools to assess hiring trends, examining the consistency of our recruitment efforts and adjusting our approach when necessary.

TATA Power

Virtual

Marketing Analyst

Sep 2020 - Oct 2020

- In this Internship, I have learned the concepts of marketing, analysis, and public dealing.

PROJECT

Food Ordering WebApp (Link : <https://github.com/mridism/food-ordering-app.git>)

- Developed a small-scale clone of a food ordering website with food cards that seamlessly interact and provide real-time updates using React components and state management.
- Implemented user authentication and authorization mechanisms to ensure secure access to user-specific carts and personalized experiences. Also implemented form validation and error handling techniques to enhance user input accuracy and provide meaningful feedback in case of errors or invalid data.

EDUCATION

Panipat Institute of Engineering and Technology

Delhi-NCR

B.Tech (Computer Science)

Graduation Date: July 2021
